**Base Year Modification Request Certification**

CIWMB 628 (NEW 7/99)

Board Meeting  
September 19-20, 2000Agenda Item 29  
Attachment 2

To request a correction to or substitution for a previously approved base-year amount used in calculating the diversion rate for your jurisdiction, please complete and sign this form and return it to your Office of Local Assistance (OLA) representative at the address below, along with any additional information requested by OLA staff. When all documentation has been received, your OLA representative will work with you to prepare for your appearance before the Board. If you have any questions about this process, please call (916) 255-2555 to be connected to your OLA representative.

Mail completed documents to:

California Integrated Waste Management Board  
Office of Local Assistance, MS 8  
8800 Cal Center Drive  
Sacramento CA 95826**General Instructions:**

Please select the **ONE** choice below that best explains your request to the Board, and complete the appropriate sections. All respondents must complete Section I and either Section II A or II B, as noted.

- ☐ 1. Correct our existing Board-approved base-year generation (disposal or diversion) tonnage. (Please complete Section I and Section II A.)
- ☐ 2. Use a recent generation-based study to substitute for our existing Board-approved base-year generation amount, but not officially change our existing Board-approved base year. (Please complete Section I and Section II B.)
- ☒ 3. Use a recent generation-based study to officially change our Board-approved existing base year to a new base year. (Please complete Section I and Section II B.)

**Section I: Jurisdiction Information and Certification***All respondents must complete this section.*

I certify under penalty of perjury that the information in this document is true and correct to the best of my knowledge, and that I am authorized to make this certification on behalf of:

**Section II B: Information for New Generation-Based Study**  
*Respondents who chose option 2 or 3 on the first page must complete this section. Attach additional sheets if necessary—please reference each response to the first page.*

**B1. Current Board-approved base-year:**

1990

**B2. Proposed base-year:**

1999

**B3. Is the proposed generation study year representative of average annual jurisdictional waste generation?**

**B4. Please select the ONE choice below that best explains your diversion data.**

- ☐ All diversion tonnage claimed is from a 100 percent audit (full enumeration) of the jurisdiction.
- ☒ Some diversion data were estimated or extrapolated from representative sources.

Source reduction tonnage for grasscycling and thrift stores was estimated by CIWMB. Please see attached diversion study for calculations.

**B5. In the table below, list the diversion data records that support your claim and estimate. Include type of record and location; for example, weigh tickets from transfer station.**

Diversion Program	Tons	Type
City Survey	756	Survey
Public Works Survey	2,895	Written Survey
Material Handler Calls	6,458	Phone Survey
Business Calls	13,142	Phone Survey
BVA On-Site Assessments	41,015	On-Site Survey
Eugene Tseng On-Site Assessments	3,457	On-Site Survey
Franchise Hauler Reports	3,722	Franchise Reports
Licensed Hauler Reports	9,983	Licensed Hauler Reports
Landfill Diversion Reports	19,055	Landfill Reports
Department of Conservation Reports	3,497	DOC Reports

- B6. Please select the ONE choice below that best explains your disposal data and complete the required tables.**
- ☐ a. All tons claimed are from the Board's Disposal Reporting System (1995 and after). (No explanation required. Skip to B9.)
- ☐ b. All tons claimed are from a 100 percent audit of hauler and self-haul tonnage (pre-1995). (Please complete B7 and then skip to B9.)
- ☒ c. Some Disposal Reporting System data were corrected. (Please skip to B8.)

**B7. If you chose "b" in B6, list the disposal data records that support your claim and are available for Board audit in the table below. Include type of record and location; for example, weigh tickets from transfer station.**

Source of Disposal	Tons	Type of Record	Location of Data
NA	NA	NA	NA

**B8. If you chose "c" in B6, list the disposal data records that support your claim and are available for Board audit in the table below. Explain tonnage amount, correction method used, and correct owner of disputed tonnage in detail.**

Source of Disposal	Tons	Correction Method Used	Correct Owner
City of Montebello franchised haulers, licensed haulers and self-haulers at LA San facilities	84,636.72	Actual disposed tonnage amounts	Should be extrapolated over all other users of listed LA San facilities
Robinson May Company	30.18	Actual tons disposed misallocated to Montebello	Should be attributed to the City of Rosemead

**B9. Enter your diversion rates in the table below.**

	1995	1996	Other Year: (please specify)
Current calculated diversion rate:	a. -80.48%	b. -62.26%	
Proposed diversion rate:	c. 36%	d. 44%	e. 1999 51 %

**B10. If the proposed base-year generation tonnage correction results in an increase in either your 1995 or 1996 waste diversion rate, please explain how the diversion rate is consistent with your diversion implementation efforts.**

The City has implemented all of its AB 939 programs, including residential and commercial recycling. A significant amount of diversion is carried out by the private sector. These efforts by local businesses within the City were not fully recognized in the base year 1990.

**B11. If the difference between the proposed diversion rates in B9c and B9d or B9d and B9e is greater than 5 percentage points, please explain the reasons for the difference in the rates. (For example: program implementation or data errors.)**

The difference in diversion rates between B9c and B9d and B9e can be attributed to decreased disposal amounts in 1996 (104,940.97) and 1999 (98,856.48) compared to 1995 (114,432.22).
